References FR 1602513, and DE 93 19 267.3 are not in the English language. An English language translation of FR 1602513 and DE 93 19 267.3 are attached to each of these references.

References CA 2,086,333, CA 2,158,373, and CA 2 144 305 C were cited by a foreign patent office in a counterpart foreign application. A copy of this English language Official Action, indicating the degree of relevance determined by the foreign patent office is submitted herewith.

The remaining foreign references and publications are not enclosed pursuant to 37 C.F.R. 1.98(d) because they are believed to have been previously submitted in an Information Disclosure Statement filed in U.S. Application No. 08/312,881, which is relied on for an earlier effective filing date in the present application under 35 U.S.C. 120.

Although the information submitted herewith may be "material" to the Examiner's consideration of the subject application, their submission is not intended to constitute an admission that such information is "prior art" as to the claimed invention.

Table 1, below, identifies those references that are listed on the presently submitted PTO/SB/08a/08b, that have not been submitted previously in this application, and that have been applied by the USPTO or a foreign patent office in a related application (by virtue of a common priority claim).
